MONEY, BONDS AND STOCKS.

A Feverish and Unsettled Market, with a Quiet but Strong Closing.

NEW YORK, Sept. 17 .- Money on call was asy at 11 24 per cent., the last loan being made at 2, closing offered at 4 per cent.

Prime mercantile paper, 51 @71 per cent. Sterling exchange was quiet but steady at \$4.847 for sixty-day bills, and \$4.88} for demand. The total sales of stocks to-day were 416,372 shares, including the following: Delaware, Lackawanna & Western, 19,818; Erie, 7,890; Lake Shore, 19,480; Louisville & Nashville, 7,802: Missouri Pacific, 19,700; Northwestern, \$3.017; Norfolk & Western preferred, 6,630; New Jersey Central, 5,000: Northern Pacific preferred, 9,350; Oregon Transcontinental, 15,-250; Reading, 75,700; Richmond & West Point,

4,860; St. Paul, 78,288; Texas Pacific, 5,115;

Union Pacific, 15.425; Western Union, 18,317. The stock market was feverish and unsettled to day, with a generally firm tone, and it was active and dull in spots, being generally strong on the duliness and weak when active. There was an improved feeling on the street this morning, and London was a free buyer of its specialties, which gave the list a good send-off, though the operations of the "bears" resulted in bringing the quotations down below the opening figures during most of the day. After the first demand was satisfied the "bears" made a determined attack upon Missouri Pacific, which was accompanied by a story that the company intended to increase its capital stock by some \$6,000,000. This was telegraphed from the West, from which locality some other items of bearish information were received. The story was denied, but it had its influence in bringing down the price of the stock nearly 3 per cent. The grangers were also very weak at times, but they succeeded in recovering bandsomely, and all of them finished the day fractions in advance of their Saturday's quotations. St. Paul, of course, attracted most attention, the trading in it being very heavy, and the publication of Mr. Armour's letter in delense of himself and the property had an influence for good. Northwestern was unusually well held throughout, on a very large business. After the strack on Missouri Pacific the "bears" mened their attention the coalers, and Reading was sold down about a point and a half, but the rest of the list remained comparatively pally taken up in the covering of "shorts." and the market, while only fairly active at any time, slowly advanced, and a material improvement over the lowest figures was the result. The opening figures were from ! to per cent. higher than Saturday's closing fighres, as a rule, though they were not well mainrained, as the "bears" succeeded in getting the list off from † @ per cent in the early trading, and, in the case of the Missouri Pacific, 11. The weakness was of short duration, however, as the great demand for stocks soon had the list up from the lowest prices 1 to 15 per cent, with the grangers in the lead. The upward movement was checked by the attack upon Missouri Pacific, and most of the gains of the morning were wiped out, after which the market became comparatively dull, though there was a firm tone, without any movement of importance, until the last hour, when a more decided advance was made, the market finally closing quiet though firm to strong at irregular changes for the day. The final changes show a majority of advances, though they were generally for fractional amounts only, the only excep-tion being Peoria, Decatur & Evansville, which

The rathroad bond market was again dull to day, the total sales reaching only \$373,000, and while Ft. Worth & Denver firsts, Reading in comes and Texas Pacific seconds were all promi nent in the dealings, there was no special activ ity in them. The tone of the market was heav; to weak all the way out, and most of the issue graded in are fractionally lower this evening The few important changes comprise a loss of per cent. in Knoxville & Ohio firsts, to 99. Government bonds were dull but firm.

CHICAGO, Sept. 17. - The opening on 'Change to-day was remarkable for activity in all quarters and unusual strength in most leading atricles of trade and speculation. Liverpool differed from London and the continent in sending easier cables on wheat, while the reverse was true on Saturday. The Northwest was responsible for the sensational strength in October wheat. At Duluth there was a bulge of 6 cents from the close of last week. The market was a whirl from the start. October shot up to 93% early and December advanced to 931, one cent higher; then there was a reaction of about ic, and again December went up to 932, with a second decline to 931, after the visible supply figures were given out. Later in the session all natural influences were disregarded, and December was to 943 fifteen minutes

the close, making an advance of 2c for the session. Wheat closed at I o'clock at 94c for December. Other futures closed: September, 954c; October, 934c; May, 974c. A fair speculative trade was reported in corn, and the feeling developed was steady. Opening sales were at Saturday's closing prices, and firm. and gradually advanced ic, reacted ic, advanced de, ruled steady and closed tole higher than Saturday. The market opened contrary to the rather limited, and prices were advanced mainly on covering by "shorts." Oats were steady to firm. Receipts were considerably above Saturday's estimate, but there was a good shipping demand, and wet weather tended to stimulate a firm feeling. Sample lots, accordingly, were somewhat firm for the better grades. Ordinary qualities of No. 2 were not improved. Mess pork was fairly active at the opening. A stronger feeling developed, and prices advanced sharply. Opening sales were at 21 75c above Saturday's close, appreciated 20c on October and 7 c on January, reacted slightly, and closed steady. Lard was the most attractive article on the special list of provisions. Holders were not disposed to sell, but "shorts" were exceedingly anxious to cover their October contracts and began bidding spiritedly. Opening sales were at .10c advance and were bid up to .42 ic by brokers, who only succeeded in getting 500 tierces. The more deferred futures came in for more attention, and showed good advances. Short ribs were in light request and firm early, but became weaker and closed with most of the advance lost, Received. Wheat, 49,700 bu; corn, 4,800 bu; oats, trading was at times active, and the close During the afternoon session there was a sensational flurry in September wheat, the price going to 98 c on the filling of a few small orders, but it broke again to 96 c almost immediately. There were free realizing sales of December and May. Corn was steady with unimportant changes in prices. Oats were moderately active and steady. Octo-ber pork declined 5c: November was unchanged. and Japuary a shade lower. September and October lard declined .15c, November .05c, the year .07jc and January .02jc. Septembe and October short ribs sold .12 c and January .02 c lower. The leading futures ranged as follows:

The visible supply of grain on Saturday, as reported to the Chicago Board of Trade, by its secretary, in comparison with that of the Saturday preceding, is as follows: Wheat, 31,378,-431 bu, an increase of 940,413 bu; corn. 8,602, 659 bu, a decrease of 487.493 bn; oats, 5,211,623 bu, an increase of 787,517 bu: rye, 508,545 bu, an increase of 130,076 bu; barley, 145,682 bu, an increase of 35,660. The Foreign Grain Trade

LONDON, Sept. 17. - The Mark Lane Express, in its weekly review of the British grain trade, says: The prospects of a later harvest are improving and the deliveries of English wheat increasing. Reports from England and the continent say that both the quantity and quality of these exceed the exportations, and are causing a check to values. The best samples of new crop have fallen 2s per quarter. The conditions of the crop are so variable that provincial sales are reported as low as 28s per quarter, while 32@38s is the average range. The sales of English wheat for the week amounted to 15,655 quarters, at 38s, 1d per quarter, against 73,711 quarters, at 28s, 8d per quarter for the corresponding week last year. Country flour is scarce at full values. The trade in foreign wheat is sick and prices are 6d @ ls lower. The Liverpool market shows a decline of 2d per cental. Flour is difficult of sale, and prices have dropped 6d. Linseed is stronger, and is quoted at 41s for Calcutta, ex shipment. At to day's market the wheat trade was slow. New English wheat was down 2s per quarter. Old native wheats were scarce and a shade dearer. Fine foreign wheats maintained their values. Indian and Russian wheats were 6d cheaper. Foreign flour was down 6d. The prices of oats were in buyers' favor. Corn dropped 6d. New malting barleys ranged from 32s to 40s. Foreign grinding stuff was 3d cheaper.

INDIANAPOLIS MARKETS.

A Quiet Monday in Trade Circles, but Few Buyers in, Prices as a Rule Firm.

INDIANAPOLIS, Sept. 17. It was rather a quiet day in trade circles, buyers probably delaying their visit to the city a day or two so as to be able to take in the State fair at the same time. The general feeling. however, is one of confidence, and a good fall trade is looked for with more than ordinary expectations, as the crop prospects are good, the money market is easy, and matters generally moving along smoothly, politics being the only impediment to trade, and in a few weeks this will be out of the way. In prices to-day there were no fluctuations of importance, a strong, steady tone pervading all markets. Sugars maintain their advancing tendency, while coffees are steady, but not so firm as a week ago. Canned goods rule steady, and, in fact, with all staple groceries there is a steady tone. Coming to the produce markets, there is a good deal of activity, prices ruling about as last week. Peaches are not arriving quite so freely, and better prices will probably be realized this week. A better quality of apples is coming on to the market, and with this prices are somewhat firmer, only poor, small fruit being difficult to dispose of. The receipts of eggs, butter and poultry are quite liberal, but 'prices show no weakness, the demand being such as to nire all receipts to fill it. The wool market is hardly as firm as two weeks ago, although no change in prices is noted in this market. Millers find no trouble in disposing of all the flour that they can make, but prices have not reached the figure which they desire and had expected. The iron market rules firm, and the same is true of tinners' supplies. Druggists are having a good trade, with firm prices ruling on most articles they handle. The seed market is active, at firm prices.

It was an off day in the local market. The attendance on 'Change was slim and the bidding rather cautious, except on wheat, which ruled one-half cent higher than on Saturday, in sympathy with other markets. Corn. more especially white grades, arriving more freely; the market well supplied. Mixed and yellow corn are in better demand. The receipts of oats for
